## **Interlock**

- Cushiony soft, 100% cotton interlock
- Resists shrinkage, fading and pilling
- Enhanced fabric keeps colors true and resists stains
- Machine wash. Imported

*Our popular Interlock Polo looks new longer! It stays true to size, colors stay bright, and stains wash out easier, wear after wear, wash after wash. Even better, you get all this performance without giving up any softness or comfort. We still use breathable 100% combed cotton fabric. You also get a smooth covered neck seam, reinforced shoulders and neat double-needle stitching.*

## HOW TO MEASURE

### WAIST

Measure around your natural waist (bend sideways - the crease is it)

Recommendation: keep one finger between the tape and your body.

### HIPS

Stand with your heels together, and measure around the fullest part of your hips, keeping the tape parallel to the floor.

### RISE

Hold the tape at the center back of your waist. Run the tape between your legs, pulling comfortably at the crotch, and up to your natural waist in front. The total measurement is your rise.

### INSEAM

Select a pair of your best-fitting pants of a similar material. Lay the pants flat and measure from the center of the crotch to the bottom of one leg.

The number of inches, to the nearest half-inch, is the inseam length.

### HEIGHT

Stand in stocking feet with your feet slightly apart and your back to a wall. Measure from the floor to the top of your head. Your height will determine whether you are PETITE, REGULAR, or TALL.

### REGULAR, PETITE, TALL OR 16W-26W

**Regular** - 5'4" - 5'7" tall, with hips slightly larger than bust.

**Petite** - 4'11" - 5'3" tall, proportioned smaller, scaled down in shoulder width and sleeve length.

**Tall** - 5'8" - 6'0" tall, accommodates long body torso and sleeve lengths.

**16W-26W** - 5'4" - 5'7" tall, proportioned to flatter full-figured women. Compared to our size 16, size 16W is 2 1/2" larger in the waist and 1 1/2" larger in the hip.

## HOW TO MEASURE

### HEIGHT

Stand in stocking feet, with feet together and back to a wall. Measure from the floor to the top of the head.

### WAIST

Measure around the waist (not over pants) at your child's natural waistline.

### NO NEED TO SIZE UP

It's always a temptation to order a larger size, to allow for shrinkage and to provide room for growth. But we've already figured that in. After normal shrinkage from a washer and dryer set on "low," our clothes will still fit properly, with room for growth spurts.

## HOW TO MEASURE

### WAIST

Remove your belt. Measure your waist where you normally wear your pants. (Subtract 1" if you're measuring over clothes.)

### HIPS

Stand with your heels together, and measure around the fullest part of your hips, keeping the tape parallel to the floor.

### INSEAM

Select a pair of your best-fitting pants of a similar material. Lay the pants flat and measure from the center of the crotch to the bottom of one leg. The number of inches, to the nearest half-inch, is the inseam length.

### REGULAR, LONG, SHORT OR BIG

Rise is the distance from your front waist to your back waist by way of your crotch.

**Regular Rise** - 5'8" - 6'0" tall, with hips and chest of equal width.

**Long Rise** - 6'1" or taller, high-waisted, or want more "depth." Garment is 1/2" longer in the rise than the regular rise.

**Short Rise** - 5'7" or under, with a short torso. Garment is 1/2" shorter in the rise than the regular rise. **Big** - 5'8" - 6'0" tall, with a less athletic profile. Pockets and other details increase in size for the right proportion.

**Big/Tall** - 6'1" - 6'3" tall, with a less athletic profile. Garment is 1/2" longer in the rise than the regular rise.
