

U-Start registration is open!

We're excited to meet our new admitted undergraduate students at [U-Start](#) events in May and June.

By attending, students admitted in summer/fall 2021 will get ready for their next important post-secondary milestone: **class registration!**

Students can sign up for [colleges sessions](#) and student [services sessions](#). By participating, they will learn:

- how to choose and register for classes,
- how to get a head start,
- where to get help, and
- what they need to know *before* September.

Students attending USask this year can also find resources on our [new students website](#).

Colleges' application deadlines extended

Canadian citizens and permanent residents can still apply for admission to

- [Edwards School of Business](#) (May 15), with requirement to submit documents by June 1;
- [Engineering](#) (June 1), with requirement to submit documents by June 15;
- [Agriculture and Bioresources](#) (July 1), with requirement to submit documents by July 15;
- [Arts and Science](#) (August 15). A&S applicants are encouraged to apply as early as possible since class registration opens in June.

The deadlines for international students remain unchanged.

[Requirements and deadlines](#)

How to apply

Joint admission

Students who do not meet USask's [English language proficiency requirement](#) are encouraged to apply for joint admission to their degree program of choice and our [English for Academic Purposes](#) program.

The deadline to apply for joint admission to any direct-entry degree program for the 2021 Fall Term is **July 15**; however, we encourage students to apply early.

Arts and Science Transition Program

Do you have a student who is thinking of applying to the College of Arts and Science, but are not certain if their marks meet the entrance requirements? Would they benefit from comprehensive support during their first year, and a tight-knit community of other students to study with?

The **Arts and Science Transition Program** may be a great fit! Students may submit an [Application for Admission](#) and select “*Arts and Science Transition*” as their first-choice program when applying for admission. Visit the [Arts and Science Transition Program webpage](#) for more information!

Summer, fall and winter registration

Starting USask in the summer term

Starting [classes in the summer term](#) is a great way for students to get ahead in their degree program, lighten their course load for the upcoming fall and winter terms or complete a prerequisite needed for a future class.

In line with federal and provincial requirements regarding COVID-19 prevention, summer classes will be offered primarily remotely (e.g. online) with limited in-person instruction where circumstances permit. No matter if classes are in-person or remote, students will receive a rich and rigorous education—with access to study help, health and wellness resources, events and workshops and much more.

These summer class options are particularly popular with first-year students:

- LING 110, **Introduction to Grammar**
July 5-23 (quarter 3)
- Math 102, **Precalculus Mathematics**
July 5-August 17 (summer term)

- Math 110, **Calculus I**
July 5-August 17 (summer term)
- Math 164, **Introduction to Linear Algebra**
July 5-August 17 (summer term)

Students can learn more about starting university in the summer [here](#) or requesting a start term switch [here](#).

Print and display the [USask summer poster](#) and [USask summer digital screen ad](#).

[Learn about summer classes](#)

Time to get ready to register for fall/winter classes

It's time for new USask students to start planning what classes they are going to register in for the 2021 fall and 2021 winter terms. Students are encouraged to save their draft class schedules in [PAWS](#) using the Plan Ahead tool, which will make registering for classes easier.

Class registration information will be emailed to students and is available on our [classes and registration page](#). Students who sign up to be part of a [Learning Community](#) (LC) or are starting classes in the College of Engineering will receive additional class registration instructions since the class registration process is slightly different for these groups.

Important class registration dates:

April 1 - Sign-up opens for [Indigenous Student Achievement Pathways](#) First-Year LCs in the College of Arts and Science.

May 3 – June 9 - Sign-up period open for:

- [Agriculture and Bioresources LCs](#)
-

- [Arts and Science First-Year Learning Experience \(FLEX\) LCs](#)
- [Kinesiology LCs](#)

May 7 - Fall and winter term classes are viewable in the class search (class instruction information, i.e. online vs. in-person, will be finalized later in the spring).

May 17 - The earliest date and time a student can register is viewable in PAWS.

June 7 - Starting at 7:30 am, registration opens for students in Learning Communities and for some Huskie athletes.

June 12

- **Starting at 9:30 am**, registration opens for first-year students entering the College of Arts and Science and College of Education*.
- **Starting at 12 pm**, registration opens for first-year students entering the Colleges of Agriculture and Bioresources, Engineering, and Kinesiology, the Edwards School of Business and the School of Environment and Sustainability.

**First-year Education students and students entering the Kinesiology/Education Combined Program must register for [Education LCs](#) as part of their program requirements along with their other classes.*

[Class registration information](#)

Are your students planning to take a math course in their first year at USask?

Whether new USask students are looking to complete their quantitative requirement for a Bachelor of Arts degree, thinking about becoming a teacher or planning to major in mathematical physics, most new students take an introductory

math or stats course in their first year. But how do students choose which one to take?

The Department of Mathematics and Statistics has developed a [new web page](#) to help students figure out which introductory math or stats course is right for them. Please feel free to share this page with your grade twelve students. Also, don't forget that the [Math Readiness Assessment](#) is available to students who need to take a calculus course for their program, and want to be prepared for the course they choose to register in.

Next year's Grade 12 students can get a head start with Edwards' COMM 101 Early Start

Students entering Grade 12 in 2021 have the opportunity to get a head start on their degree by taking [COMM 101](#), an online business course offered by Edwards School of Business.

With [COMM 101 Early Start](#), students can:

- find out whether commerce is right for them,
- discover what major they're interested in,
- possibly earn a scholarship for future degree, and
- earn high school credit.

Read and share [Brayden's story](#) about his experience taking COMM 101 through the Early Start program.

Encourage students to apply on Edwards' [COMM 101 Online page](#) by June 30,

2021 to start in September 2021.

Career planning should start sooner than you think

Staff at [Career Services](#) (formerly Student Employment and Career Centre) know that exploring and preparing for a career can be exciting but may leave students feeling overwhelmed and confused. The good news is, it's never too early to start, and Career Services can help!

Once a student has been admitted to USask, they can book an appointment with a career educator, attend employer events, apply for jobs posted in the Career Services job portal and access online resources. Learn more at the [Career Services web page for students](#) and [read the recently published article](#).

Other upcoming events

USASKSparks

Students (grades 10-12) interested in an undergraduate degree can discover the paths to their inspiring future career through our exclusive USASKSparks webinars.

- [Tue. May 18, 1 pm](#)

Application workshops

Meet our recruiters for a walkthrough to apply for USask! We'll offer these events for domestic students who have a mid-August application deadline for the College of Arts and Science:

- [Thurs. May 13, 7 pm**](#)
 - [Mon. May 31, 7 pm**](#)
-

*****The events with asterisks target MAINLY grade 12 domestic students who have mid-August application deadlines for the College of Arts and Science. Grade 11 domestic and international students and their supporters are also welcome to attend.*****

Instagram Live events

We host Instagram Live events on the [@usask.future.students](#) Instagram channel every week!

Here are some upcoming events:

- Thurs. May 13, 3 pm, College of Arts and Science
- Thurs. May 20, 3 pm, Edwards School of Business

[Follow us on Instagram](#) to be notified of upcoming live events, and visit our channel to find videos from all of our past live events!

Drop-in Q&A Wednesdays

Did you know students can [book a 20-minute appointment](#) with a USask recruitment officer to answer any questions about admission requirements, scholarships, housing and more?

Appointments are available for students interested in applying to undergraduate programs in the Colleges of Agriculture and Bioresources, Arts and Science, Education,
